fixed windows

fixed windows

Fixed windows are often called "picture windows" as they enable the maximum amount of light to enter a room while opening up a vista of unobstructed views.

Our fixed windows are tailor-made to suit your requirements and are available in any custom shape, including arched, bay, curved, segmented, round or gothic.

They are an ideal way to capture panoramic views or to add flair to your design with unique window shapes and configurations.

All of our fixed (non-opening) windows are constructed using 100% solid timber frames and are available with a range of quality glazing, including standard, obscure, energy saving glass and double glazing.

Timber Choices

-  Western Red Cedar
-  KD Hardwood
-  Other timbers on request

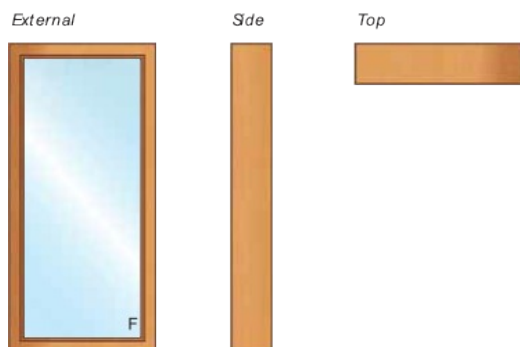

Sash Profile Options

-  Ogee (standard)
Max glass thickness 6.38mm
-  Jays (traditional)
Max glass thickness 10.38mm
-  Heritage (traditional)
Suits double-glaze, max glass thickness 16mm
-  Square Edge (modern)
Suitable for single or double glazing

Data & Specifications

- Precision machined from 100% solid timber (no veneers or fingerjoints).
- Custom-made to suit your height and width requirements.
- Max glass size 2800mm x 5100mm (clear toughened). Larger glazing spans can be achieved using silicone joints.
- 90° corners available with silicone joints.
- All silicone joints use premium quality structural silicone sealant in accordance with Australian Standards.
- Available hard glazed (no sash) or with fixed timber sash.
- Available with raw timber frames or pre-primed in grey or white.
- Federation/Colonial style glazing available (with integrated timber bars).
- Timber frames available in clear finish grade or paint grade.
- Available in a range of glazing styles, including curved and segmented glazing.
- AS2047 compliant.
