- ✓ Premium quality weatherseals
- ✓ Smooth, easy operation

Pivot doors make a dramatic and impressive entrance statement. Cedar West pivot doors feature a premium quality, commercial grade mechanism with soft-closing and hold-open functions.

# pivot doors

Pivot doors create a powerful first impression, and are a striking, sophisticated alternative to hinged doors. Cedar West offers an extensive range of beautiful timber pivot doors that can be customised to suit your requirements.

Our pivot doors use a strong, commercial grade pivot mechanism for durability and reliability. The pivot mechanism is top-mounted\* to create a streamlined appearance. This provides a sleek, elegant threshold that is suitable for either a solid timber sill or a contemporary flow-through.

impressive

Flow-through sill (optional)

## Hold-open and soft-close functions

Cedar West pivot doors are easy to use, and feature a soft-close function with adjustable speed control for safety. Our pivot doors can also be held open at 90 degrees to create a wide, generous entrance.

modern

## Timber Choices

-  Western Red Cedar
-  KD Hardwood
-  Other timbers on request
