- ✓ Ventilated or non-ventilated options
- ✓ Can be stained or painted any colour

Timber turret louvres enhance the appearance of any turret, gate house, portico, gable or balcony. Our timber turret louvres are available to suit both ventilated and non-ventilated requirements.

# turret louvres

Timber turret louvres can be used to add an impressive architectural element to the facade of a building.

Available in both ventilated and non-ventilated options, our timber turret louvres feature fixed (non-moving) timber blades. Turret louvres are the ideal way to add style and interest to porticos, turrets, gatehouses, garages, gables and other external surfaces.

## Quality timber and materials

Our timber turret louvres are constructed from high-grade, durable solid timber that has been carefully selected to withstand the elements and provide years of outstanding performance.

## Timber Choices

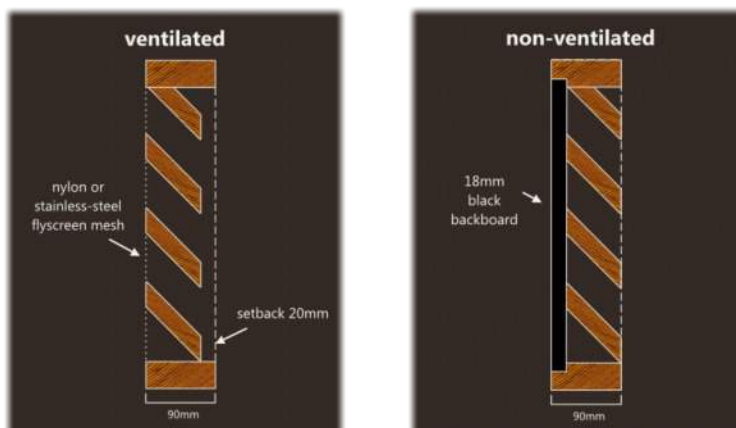

-  Western Red Cedar
-  KD Hardwood
-  Other timbers on request
