hinged doors

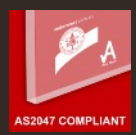

Versatile design that suits both traditional and modern doors

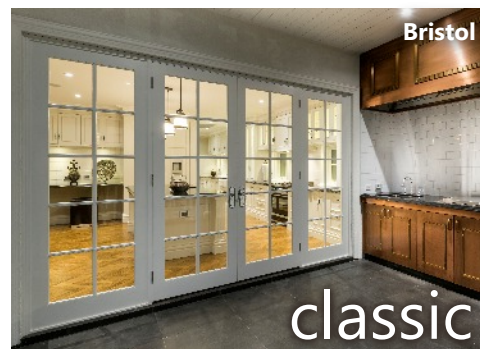

Hinged doors can be used to create a diverse range of architectural styles. Create a gracious, timeless entrance set with a pair of solid timber doors, or select a sleek, contemporary design for a more modern look.

- ✓ Suits all Cedar West door designs
- ✓ Internal and external applications
- ✓ Available with single or double frame
- ✓ Variety of thresholds available
- ✓ Unique sealing system for inward opening doors (optional)
- ✓ Flyscreens available

hinged doors

Hinged doors are extremely versatile, and can be used to create a variety of architectural looks and styles. Choose a grand, elegant pair of solid timber doors for a classic look, or select an eye-catching, wide contemporary door for a more modern home.

Unique sealing system for inward opening doors

Following extensive research and testing, we are able to provide a fully certified, inward-opening door option. Our high performing, self-draining sill complies with AS2047, and provides excellent weather protection.

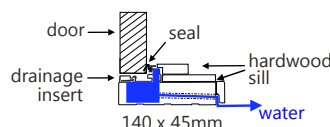

Timber Choices

-  Western Red Cedar
-  KD Hardwood
-  Other timbers on request

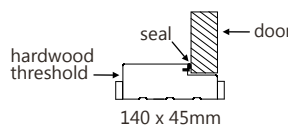

Sill Colours Options

For inward-opening doors only

-  Hamersley Brown
-  Clear Anodised
-  White

Data & Specifications

- Custom-made to suit your size requirements. Custom-designs and frame configurations available. Can incorporate all Cedar West door designs. Visit our website to view the latest designs www.cedarwest.com.au.
- Outward-opening doors have hardwood timber threshold as standard. Recessed sill/flush threshold option also available.
- Inward-opening doors feature a unique sealing system with self-draining aluminium sill with hardwood insert. Sill colours options: Hamersley Brown, Clear Anodised or White. Recessed sill option also available.
- All hinged doors include full perimeter Aqua 21 seals to jamb and head.
- Suitable for single or double door frames.
- Maximum size of each door leaf: 2700mm (h) x 1200mm (w). For wider doors we recommend our soft-close pivot system.
- Available with optional flydoor or retractable flyscreen.
- Range of quality handles and locking mechanisms available, including electric strikes and multi-lock options.
- BAL-rated timber available. Can be built to meet requirements of AS3959 (up to BAL 29 only).
- Available in raw timber, or with white or grey factory primer (applied to exposed surfaces).
