Wainscoting timber wall panels add beauty and grace to your project. Our raised-panel timber wainscoting is custom-made and supplied in pre-made panels for ease of installation.

wainscoting

Wainscoting (decorative timber panelling) creates an elegant and graceful point of interest in any room. Wainscoting is ideal for luxury custom homes, French-inspired designs and Hamptons-style properties.

Our wainscoting is supplied in pre-made panels for ease of installation. Each panel is constructed by experienced craftsmen, using high-quality materials and solid timber bolections and mouldings for an exceptional finish.

elegant

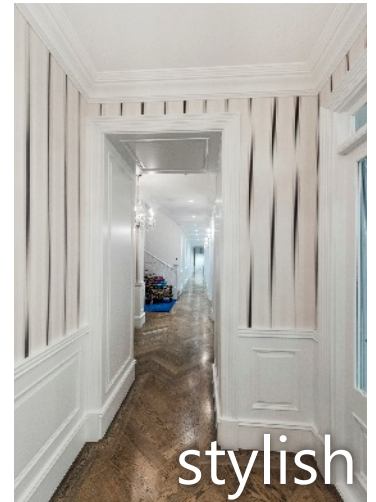

Raised profile

The lovely curved lines of the timber mouldings project beyond the face of the panel to create a beautiful three-dimensional effect. The design of the panels can be customised to suit your project.

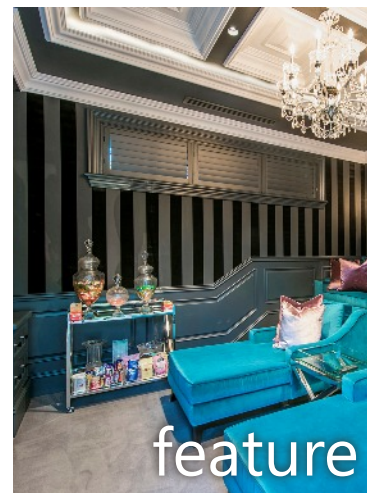

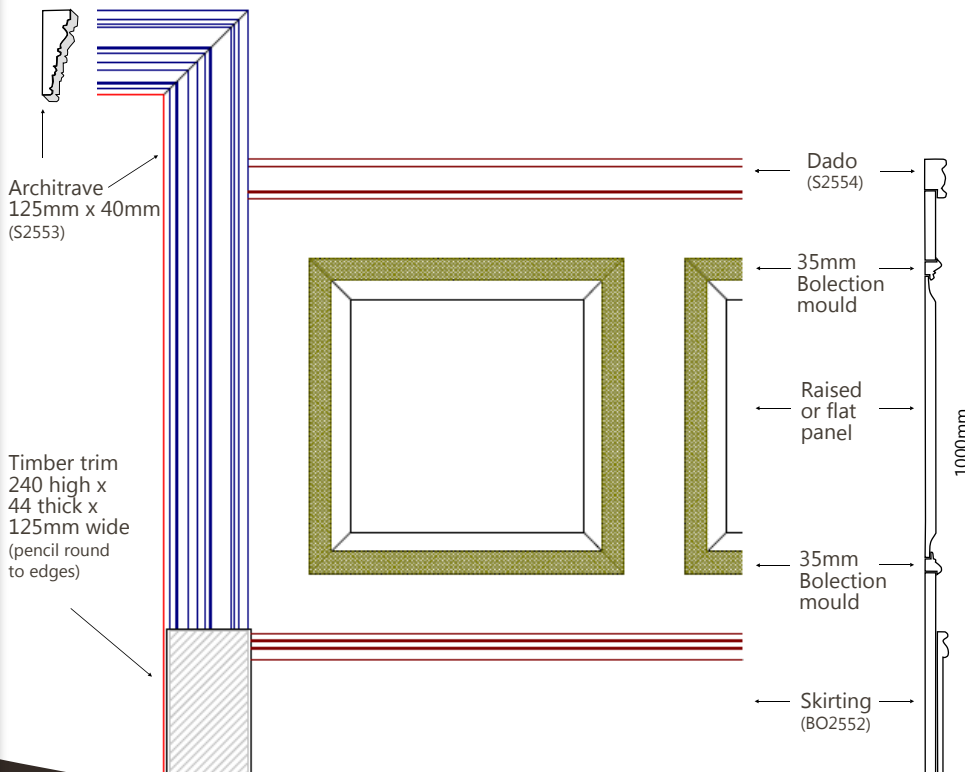

Data & Specifications

- Custom-made sized to suit your requirements.
- Supplied as pre-made assembled modules with bolection mouldings fixed in place. Skirting/dado mouldings supplied in lengths for fitting on site.
- Main frame and fielded panels are MDF HMR (high moisture resistant) sheet overlaid with solid timber skirting/bolections/dado.
- Standard panel height is 1000mm (may be customised).
- Customised wainscoting available for staircases.
- Available in raw finish, or with factory primer (white or grey).
- Ready to install on site.
